Technology Partner

Dhatri Infrastructure offers sliding bearings under technical partnership with PG Systemtechnik GmbH & Co. KG, Germany, whose employees have know-how and experience of more than 20 years in design, manufacturing and sales of sliding bearings globally.

Many such projects in Germany, Europe and worldwide have been supplied successfully till date.

We cover the whole range of design and supply of PTFE sliding bearings for power plants, pipe constructions and civil engineering.

The fully refurbished line of PGslide® bearing technology comes with following advantages:

- ✓ maximum load up to 30.000 KN
- ✓ temperatures up to 550°C
- ✓ very low coefficient of friction (for PTFE see below chart)
- ✓ optimized design: small, universally connectable, cost efficient
- ✓ full service including design, manufacturing and assembly of bearings
